DETAILED ACTION

This Office Action is in response to the election filed on 2/7/05. Currently, claims 1-8, 10-17 and 19-20 are pending.

Election/Restrictions

Applicant's election with traverse of claims 1-5, 8, 10-14, 17, 19, and 20 in the reply filed on 2/7/05 is acknowledged. The traversal is on the ground(s) that there would be no undue burden in the examining of Group II claims, 6, 7, 15 and 16. This is not found persuasive because Group I (drawn to a method) and Group II (drawn to a device) are patentably distinct inventions. The requirement is still deemed proper and is therefore made FINAL.

Claims 6, 7, 15 and 16 are withdrawn from further consideration pursuant to 37 CFR 1.142(b), as being drawn to a nonelected invention, there being no allowable generic or linking claim. Applicant timely traversed the restriction (election) requirement in the reply filed on 2/7/05.

This application contains claims directed to the following patentably distinct species of the claimed invention: Species I (figure 1) is drawn to the first Embodiment and Species II (figures 5A-5D) is drawn to the second Embodiment.

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, no claim is generic.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable

Art Unit: 2812

thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

A telephone call was made to Michael K. O'Neill on 4/11/05 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Stanetta D. Isaac whose telephone number is 571-272-1671. The examiner can normally be reached on Monday-Friday 9:30am -6:30pm.
